Request for Proposal from: Mr Yahia EL Menshawy, MBA

Business Development and

International cooperation manager

Chemical & Fertilizers Export Council

Ministry of Investment and Foreign Trade

Subject ;Trade mission to Poland and general cooperation

Country of Performance :Poland

I. The mechanism and requirements for organizing a trade mission.

Organization Stages

- 1) Selection of the group of products for the trade mission**
- 2) Selection of city and time range**
- 3) Decide duration of the trade mission.**

4)Preparing draft programme of the trade mission and logo

5)Preparing plan of recruitment of buyers

6)Preparing the plan of promoting the event, projects of

Promotional materials

7) Substantive preparation (pre-mission)

Collecting profiles of potential visitors (company profile, value proposition, HS codes, partner preferences). Screening of profiles

8) Execution (in-market). Preparing plan of briefings with the embassy/consul, one-on-one meetings with pre-selection; site visits; events with local chambers and associations; often having officials present raises the profile.

9) Follow-up and evaluation

Meeting summaries, sending materials, invitations for second meetings (including adding additional decision-makers), tracking metrics (number of leads, qualified contacts, pipeline, deals, qualitative feedback)

Methodology for Identifying and Arranging B2B Meetings

1. Define Objectives and Participant Profiles

- Establish the trade mission's objectives, target sectors, and priority products or services.
- Collect detailed profiles of participating companies, including their offerings, production capacity, import preferences.
- Determine each participant's ideal business partner profile (e.g., importer, distributor, wholesaler, agent, direct buyer).

2. Market Research and Partner Identification

- Conduct comprehensive market research to identify potential buyers and distribution partners that match the participants' objectives.
- Utilize multiple sources, including:
 - Industry databases and business directories
 - Chambers of commerce and trade associations
 - Government trade and investment agencies
 - Sector-specific exhibitions and trade fair databases.
 - Existing business networks and referrals
 - Professional networking platforms and commercial intelligence tools
 - Own records
-

II. The expected scope of services, timeline, and deliverables.

Timeline

After deciding the trade mission will take place the following deadlines and core dates shall be agreed.

1. Deadline to agree date's range for the trade event (assumption is for 2 days event)
2. Deadline for collect offers of available and suggested places for arrange the trade event.
3. Deadline for deciding the final dates and place.
4. The period of 3 months is needed to arrange the event in the best professional way.
5. The progress of work of the Consultant shall be reported as follows:
 - till 4 weeks before the event, once a week
 - till 1 week before the event, twice a week
 - last week before the event, every day

Scope of Work and Standards

In close collaboration with the Ministry the firm will undertake the following tasks for each trade event:

Business Lead Identification: Conduct thorough analysis to pinpoint qualified business leads within. Utilize targeted marketing campaigns and digital advertising strategies to

attract potential leads. Engage in networking events, trade shows, and industry conferences to establish direct connections with key decision-makers. Implementing

scoring systems to prioritize high-potential prospects based on predefined criteria set such as company size, industry relevance, and purchasing power. Collaborate with counterparts in the targeted markets, associations, and chambers of commerce to gain insights and access to exclusive business directories.

Capability Assessment for Egyptian companies: Collaborate with the Egyptian teams to review the product portfolios of the selected companies. This task includes thoroughly analysing the export potential of those companies. Additionally, it involves pinpointing areas for improvement to better align with the preferences and regulations of the local polish market and helping to tailor the products to meet the demands of those markets.

Buyer List Preparation: The firm will compile a list of prospective buyers, including importers, agents, wholesalers, direct buyers and, if possible, their company profiles to ensure the list is up-to-date and relevant to the target markets.

Orientation session: The consultancy firm will conduct an orientation session for interested Parties (Ministry team, participants) members to familiarize them with the target market, including consumer preferences, specifications, certifications, required documents, and market demands.

Venue Proposal: Suggest appropriate place and time for holding the trade event, considering accessibility and facilities. Ensure the venue can accommodate the expected number of participants. Coordinate with the Egyptian team to finalize the venue's setup. Attached is the reference offer of showrooms/hotel rooms.

B2B Meeting Arrangement: Schedule high-quality B2B meetings between Egyptian companies and their counterparts in polish market.

B2B Meeting Management: Oversee the organization, confirmation, and management of B2B meetings, encompassing buyer invitations, coordination, and handling. Facilitate meetings to ensure productive interactions.

Supporting Activities: Carry out additional activities that may ensure the trade event's success, including, but not limited to, digital marketing, e-commerce activities, orientations, preparatory missions, the creation of a dedicated website for the trade event, and any other activities contributing to the mission's success.

Registration Management Assistance: Help the client manage registrations, including handling buyers' registration, scheduling walk-in buyers based on time availability, sending reminders to registered buyers, updating the master schedule.

Comprehensive Report Preparation: The consultancy firm will draft a detailed report for trade event. The report will encapsulate the mission's objectives, activities,

outcomes, and recommendations for future mission actions, and an overview of the event, key participants, significant trends, identified opportunities, and suggestions for future participation in trade events and follow-up activities.

Buyers feedback: After the trade mission, the consultancy firm should collect and document feedback from the buyers who attended the trade event as much as possible.

Deliverables

- An initial list of invited participants and their specialization should be submitted approximately three

to four weeks before each miss

Deliverables

- An initial list of invited participants and their specialization should be submitted three to four weeks before the trade mission.
- In collaboration with the Ministry a verified list of eligible Egyptian companies to participate in the trade event will be developed. This list should be based on a thorough analysis of each participating company's capabilities and products.
- A PowerPoint presentation for the orientation session that includes consumer preferences, product specifications, certifications, required documents, and market demands.
- A list of suggested venues to hold the export promotion event that will ensure optimum

implementation of the activity, including specifications of the required venue.

- A list of critical associations that might support the trade event to be invited to the event.
- A detailed list of confirmed buyers attending the trade event and a schedule for the meetings will be shared with the Ministry one week before the event.

- A follow-up matrix with buyers who attended the trade event should include their feedback, the probability of doing business with Egyptian companies, and any positive or negative aspects of dealing with Egyptian exporters in general for the Ministry learning purposes.
